Instructions for SITE STAFF

Please read the following to the subject:

This questionnaire will require you to rate your current ability to perform certain everyday tasks. Please take your time, read each item carefully, consider all of the possible responses, and choose the item response that best describes your current abilities. This questionnaire should take about ten minutes to complete. If you get stuck on an item or have a question, please let me know.

You will be completing this questionnaire using a tablet (hand tablet to the subject). Before you begin, let me quickly show you how to use it.

Please review each of the following topics with the subject, making sure to demonstrate or point out each feature.

1. Orientation: The tablet should be held in portrait position so they don't miss items.
2. Navigation: They can turn pages by using the navigation circle in the upper left hand side of the form or by using the arrows at the bottom of the page.
3. Which items to answer: All items they are required to answer will be highlighted in yellow.
4. Selecting a response: Responses can be selected by using the stylus (just like they would a pen) or their finger. Let them know changing their response selection is easy - just select a new option or they can deselect the option by tapping it again with their finger or stylus.
5. Status bar: At the bottom of each page there will be a progress statement to show them how many items they have answered and are left to complete.
6. When finished: Instruct the subject to return the tablet to you when they are done.

Please rate your **CURRENT** level of difficulty performing the following everyday tasks...

1. Remembering a few shopping items.

- ☐ No Difficulty
- ☐ Mild Difficulty
- ☐ Moderate Difficulty
- ☐ Severe Difficulty
- ☐ Unable to Do

2. Remembering things that happened recently (such as recent outings, events in the news).

- ☐ No Difficulty
- ☐ Mild Difficulty
- ☐ Moderate Difficulty
- ☐ Severe Difficulty
- ☐ Unable to Do
